China

Dear Doctor Yue,

You recently acted as an external expert referee to review a funding application submitted to the New University Researchers Start-up Program of Fonds de recherche du Québec – Nature et technologies (FRQNT).

We sincerely thank you for the time and efforts you have devoted to provide in due time your assessment report. We are well aware that such work was very demanding and doubtless added to an already busy agenda. Your rigorous and impartial review was much appreciated by the members of the multidisciplinary committee in charge of the final step of the evaluation process.

The peer review process can effectively operate only if researchers like you agree to lend their support. Thanks to such collaboration, the FRQNT can fulfill its mandate to support the best academic research in Quebec.

Note that you will be able to access the results of the current competition at the end of April at <http://www.frqnt.gouv.qc.ca/en/bourses-et-subventions/resultats-des-concours>.

We do hope we can count again on your valuable contribution in the future.

Sincerely,

Maryse Lassonde, O.C., C.Q., Ph.D., FRSC  
Scientific Director

Guy Tremblay, Ph. D.  
Program Manager
